External cladding

CONTENTS

A wide range of external and internal low-maintenance composite and PVC-U cladding systems that are easy to fit.

- **Lightweight Cladding**
  Weatherproof Lightweight composite cladding that's easy to install. Now available in both vertical and horizontal applications.

- **Shiplap cladding**
  Refresh tired brickwork or timber cladding with our range of low-maintenance PVC-U shiplap cladding. For more information, see page 14.

- **Forma Composite Cladding**
  This composite range is both modern and low maintenance. With a flat panel and slatted effect there are designs to suit every project.

DON'T FORGET TO ADD OUR CLADDING TAPE TO YOUR ORDER TO PROTECT THE JOISTS. THIS ALSO GIVES A LONGER LIFE TO YOUR CLADDING PROJECT.

Shiplap external cladding

GUARANTEED 20 YEARS

BENEFITS AT A GLANCE

Quick and easy to install

Low maintenance

Range of colours available

Shiplap cladding

Eurocell PVC-U cladding provides an attractive, low-maintenance, weather-resistant solution for replacing rotten timber cladding, concealing problem areas of brickwork or adding an interesting new feature to a property.

Available in shiplap or open-V styles, our cladding is designed for easy installation with a simple clip-together fitting system. Our range of colours and realistic woodgrain finishes means you can create a truly unique appearance, whether you want a rustic timber-effect or a crisp contemporary white finish.

The colours available are exactly matched with Eurocell windows, doors and roofline products for a consistent look across any home.

SPEAR & JACKSON

TOOLBOX ESSENTIALS

Spear & Jackson Predator UPVC Saw

A fine cutting saw for UPVC and hard plastics

Our range of Predator hardpoint saws have been specifically developed to meet the needs of even the most demanding professionals.

Our Predator saws are heat-treated using the latest technology to ensure outstanding durability and performance.

- Fast cut - smooth, clean cutting action
- Rigid blade minimises whip and vibration
- Ideal for cutting UPVC sills, trims, and pipes
- Suregrip soft feel ergonomic grip and finger guide for improved accuracy, with a 45/90° angle guide
- 20" harden and tempered carbon steel blade
- 14 PPI Hardpoint teeth

DON'T FORGET to pick your 5m and 8m heavy duty tape measures online or in store.

260 YEARS 1760-2020

Decking range

CONTENTS

DECKING

- **Eurocell** woodgrain and groove decking is perfect for gardens, patios, pool areas and holiday homes.

- **Linea Decking** - With advanced co-extrusion technology, Linea decking provides a durable outer layer for a long lasting performance. It has naturalistic colour streaking with a unique dual-sided board design.

- **Forma** - Forma also offers advanced co-extrusion technology which provides durability, UV stability and scratch and stain resistance. A long lasting board with beautiful timber grain on one side and grooved pattern on the other.

- **Solid decking** - offers a premium composite board for your low-maintenance garden. Offering 2 different ranges to suit every budget. Solid decking is the high-end quality board with a 25-year guarantee.

- **Decking joists and frames** - a range of plastic joists and posts provide a simple, easy-to-install timber free sub-structure for all composite decking projects.

DON'T FORGET TO ADD DECKING TAPE TO YOUR ORDER, THIS TAPE PROTECTS YOUR JOISTS AS WELL AS GIVING EXTRA PROTECTION TO YOUR DECKING BOARDS.

Eurocell composite decking

THE FEATURES & BENEFITS OF EUROCELL HOLLOW DECKING ARE:

Recycled wood polymer construction

More durable than timber

Concealed fixings

Anti-slip surface

Durable and long-lasting

Low maintenance - no need to paint, stain or seal

Does not rot, warp or splinter

Support up to 100kg

Dual surface (woodgrain & grooved)

Linea composite decking

NEW

THE FEATURES & BENEFITS OF LINEA HOLLOW DECKING ARE:

Low maintenance - no need to paint, stain or seal

Easy installation system with hidden fixings

UV stable, scratch resistant and long lasting

Unique dual-sided board featuring straight grain and traditional grooves
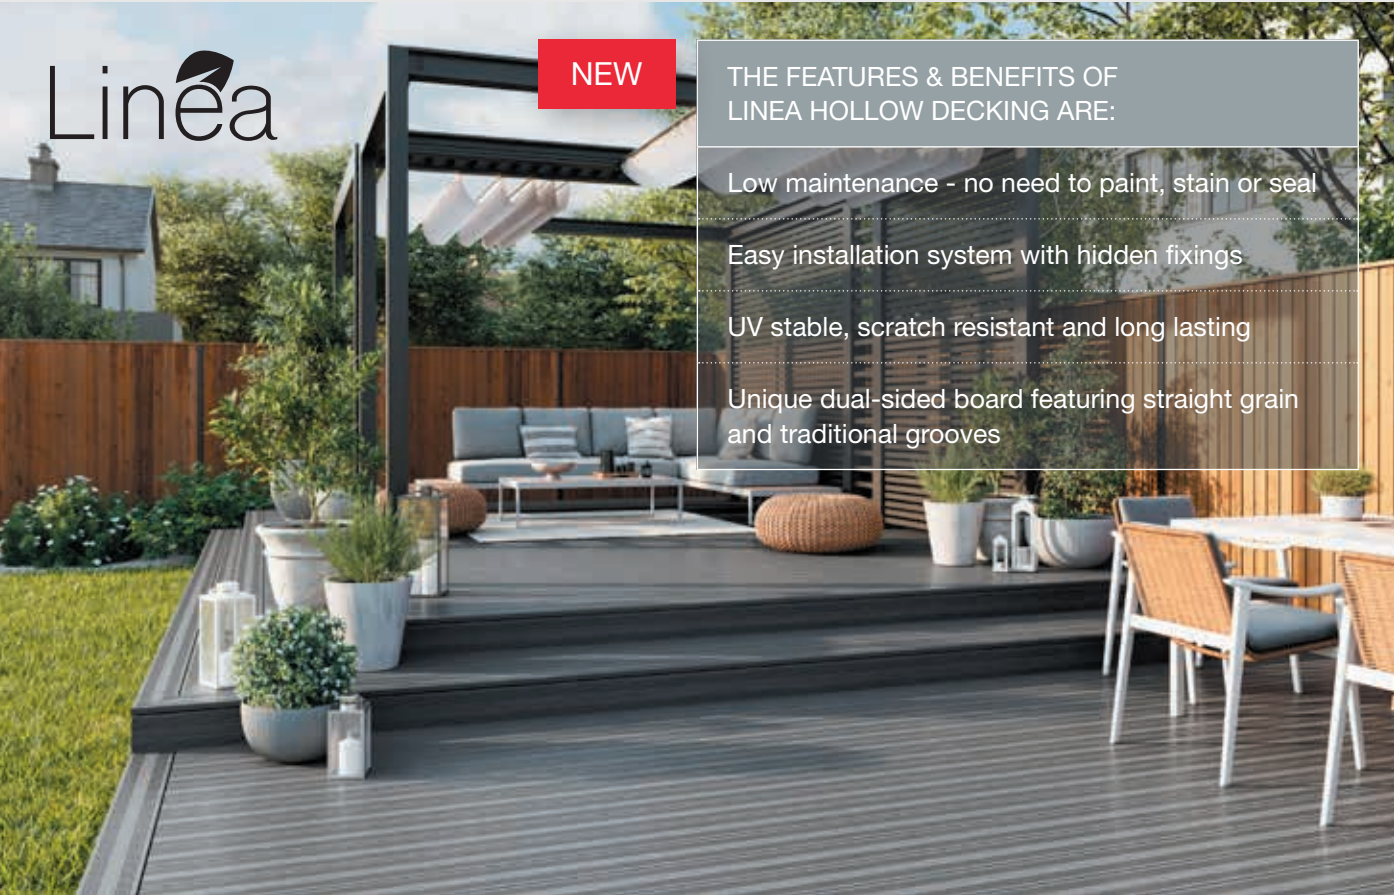

LINEA RANGE OF HOLLOW DECKING

Linea decking has a capped exterior protecting it from harmful UV rays, scratches and extreme weather conditions. Linea is long lasting, low maintenance and sustainably produced using 95% recycled materials. Available in 4 new colours and a dual-sided feature with a unique design. One side offers a traditional groove, creating a distinctive staggered pattern unlike anything else available. Whilst the other side showcases an

authentic straight grain, lending a more contemporary and streamlined appeal.

Each Linea deck board has its own distinct character through a unique colour streaking process that imitates natural timber and creates a truly individualised aesthetic. Installation guides available online.

Forma composite decking

THE FEATURES & BENEFITS OF FORMA HOLLOW DECKING ARE:

Environmentally conscious design using 95% recycled product materials

Low maintenance - no need to paint, stain or seal

Does not rot, warp or splinter

Natural looking without any of the drawbacks of timber

Easy installation system with invisible fixings

Board size: 25mm x 150mm x 3000mm/4800mm

Forma®

**7 DAYS — DELIVERY WITHIN 7 DAYS**

**GUARANTEED 25 YEARS**

FORMA RANGE OF HOLLOW DECKING

Forma boards are made up of 52% reclaimed wood fibres, 43% recycled plastic and 5% bonding agent. Forma uses advanced co-extrusion technology which generates an externally durable outer layer, so the board has a dual surface finish with a woodgrain pattern on one side and a wide groove pattern on the reverse. With 1mm HDPE capping the Forma composite decking board is extremely durable, this durable capping also will not absorb tough staining liquids such as oils, wine and dyes. If you would like to use your decking for entertaining, you can be confident that your decking will withstand heavy use as Forma was originally designed for use in commercial areas such as hotels and restaurants. Installation guides available Online!

DEX RANGE OF COMPOSITE DECKING

A wood-plastic composite deck board that offers the best combination of value and performance, deX is co-extruded and fully capped on three sides to enhance surface traction and prevent fading. Available in two popular colours featuring an embossed wood-grain effect, and subtle dark tones in the design to enhance the character of your deck. The comprehensive guarantee protects against board breakages, colour fading and surface stains for 25 years (domestic applications). Solid edge boards are available for framing, finishing or steps, where the edges of the decking is exposed.

Voyage Solid Mineral Decking

THE FEATURES & BENEFITS OF SOLID DECKING ARE:

- Natural look
- Low maintenance
- Durable and-long lasting
- Installation guides available Online!

COLOURS AVAILABLE

KHAYA   SIERRA

GUARANTEED 25 YEARS

Voyage

A mineral-based composite deck board which is unique to the market. It has minimal thermal movement allowing the boards to be installed with reduced gaps. A UK first with a 235mm width board. Market leading and UK leading.

7 DAYS — DELIVERY WITHIN 7 DAYS

VOYAGE RANGE OF SOLID DECKING

Eurocell now offers a premium range of Solid decking in two decking styles. Solid composite decking is an environmentally friendly way to enjoy your garden all year round. Unlike hollow decking, solid decking offers a much stronger board and a more premium overall quality. The option of seamless installation with hidden fixings. All ranges come in both solid and grooved edges.

Voyage mineral-based composite decking

Voyage decking has the industry's best strength-to-weight ratio and is made from a revolutionary mineral-based composite. Voyage features a fibre-like structure similar to wood that has unmatched strength while being nearly 35% lighter than traditional composites.

Easy to install with virtually no thermal movement

35% lighter than traditional composite decking

34% greater surface traction than other leading brands

Available in two widths; 140 mm and our exclusive 235 mm

Exceptional stain and fade resistant cap material.

Ground and water contact installation warranty.

Voyage MBC decking, designed with textured embossing for best in class traction.

EASY TO INSTALL SUB-STRUCTURE FOR ALL COMPOSITE DECKING PROJECTS:

Maintenance free

Gives a completely waterproof and weatherproof seal

DECKING JOIST AND FRAMES

The Ecoscape UK range of plastic joists and posts provide a simple, easy-to-install timber-free substructure for all composite decking projects.

The plastic joists and posts are available in a range of sizes (see specification) and combine well with our other support systems. These are manufactured from 100% recycled plastic and have a 25-year guarantee.

These products are perfect for use in all conditions as they do not rot, split or warp. This ensures you end up with a stylish and durably sound investment.

Fencing range

CONTENTS

- **Eco Fencing** - this PVC-U fencing's unique finish will add beauty and complements gardens for years to come.

- **Composite Fencing** - with its modern, sleek look and simple tongue and groove fitting system that provides adaptability and is ideal for new or existing settings.

- **Clarity Composite Fencing** - these incredibly lightweight fencing panels are strong, easy to handle and transport, and environmentally friendly using 95% recycled materials.

Whilst our composite materials are highly durable we do recommend you follow the guidelines for storage, handling and installation.

Please note this fencing should not be installed higher than 6ft (note: Clarity composite fencing can be fitted to go to 10ft high) and must follow guidelines when fitting onto both concrete and soft ground.

Please ask in branch for our Fencing Installation Guide.

CLARITY COMPOSITE FENCING

Eco fencing

THE FEATURES & BENEFITS OF
OUR ECO FENCING:

Can be used in existing concrete posts

Transforms gardens with stylish, low-maintenance composite fencing

Lightweight and easy to handle

EASILY REPLACE ROTTEN OLD PANELS

BEFORE

AFTER

GUARANTEED 20 YEARS

The unique finish of composite fencing will add beauty and complement a garden's natural surroundings. These incredibly light fencing panels are extremely strong, making general handling and transportation easy.

SIMPLY STACK TO THE REQUIRED HEIGHT

Composite fencing boards

Code	Description	Size (mm)
ECOFPAN6	6ft lengths graphite	52 x 300 x 1829
ECOFPAN8	8ft lengths graphite	52 x 300 x 2438
Colour options: Graphite GRA, Natural NAT, Walnut WAL		

COLOUR OPTIONS

NATURAL	WALNUT	GRAPHITE

Composite fencing posts*

Code	Description	Size (mm)
ECOFPOST6	Eco fence post	90 x 110 x 1800
ECOFPOST8	Eco fence post with steel insert	90 x 110 x 2400
ECOFPOST9	Eco fence post with steel insert	90 x 110 x 2700
Colour options: Graphite GRA, Natural NAT, Walnut WAL		

* Fencing posts are designed to flex and from our experience over the years, we would advise that for fences over 6ft tall a cement grout is poured down the inside of the posts to reduce excess flex. When fitting a gate, a timber post will need to be fixed to the eco posts to provide a square edge for the hinges and catch. Watermarks may appear on panels, this will fade with time and add a weathered look to the board. Colour will fade and change over time due to weathering.

ADD A SHAPED TOP FOR A PREMIUM LOOK

Shaped tops

Code	Description	Size (mm)

Composite fencing

PREMIUM FENCING THAT'S BUILT TO LAST

THE FEATURES & BENEFITS OF OUR COMPOSITE FENCING:

Simple tongue and groove fitting system

Reduced environmental impact

Tough and hardwearing

STOCKED IN BRANCH

GUARANTEED 20 YEARS

With its modern, sleek colour and simple tongue and groove fitting system that provides additional adaptability, composite fencing is ideal for a wide range of gardens. No compromise is made with appearance, as composite fencing has an on-trend look that will not deteriorate as it is warp free, rot free and splinter-free.

Being capable of withstanding the test of time, whilst not ridding the world of its natural resources, also makes composite fencing a sustainable and forward-thinking option. Merging sustainability with low maintenance, the popularity of composite fencing is only likely to grow, and with the premium look that it brings, we can all be happier for it.

- All fence posts are 2.4m in height and can be cut to the size required. If you are installing the fence onto concrete ground such as a driveway then the steel post mounts are required.
- If installing on soft ground ensure that the fence is rooted strongly enough, and bury it at least 60cm into the ground. This will give strength to the post when installed.
- When preparing the groundwork for the installation of the fence, you must ensure that the ground is as level as possible.
- If the fencing is to be built on a slope, requirements must be made to the groundwork to ensure the fencing goes up in steps. There is no gravel board which requires burying in the ground. Therefore the ground needs to be level.
- Panels are 150mm x 21mm x 1830mm tongue and groove. The first panel will sit on the bottom rail, panels will then stack one on top of the next to the desired height.
- Height can not exceed 6ft.

EUROCELL HAVE EXTENDED THE GLASS BALUSTRADE RANGE. THE RANGE NOW COMES IN COMPOSITE, STEEL, ALUMINIUM AND U CHANNEL.

MODA - Aluminium and Glass Balustrade

The Aluminium railing system is a new innovative easy to install railing system designed to be fully modular. Pre-assembled aluminium posts are available in both bolt-down and side-fix versions, ready to install with or without a handrail, and have a stunning satin anodised finish, or black powder coat.

Rated to 1.5kN when base-fixed, and 0.74kN when side-fixed, these fully engineered railings have been designed to meet the requirements of most applications. NB: force rating not applicable without handrail.

The systems can be installed with or without a top rail to provide an economical solution for a post and glass panel design. Each system can be easily fitted using basic equipment.

Pergolas & verandas

Oasis pergolas and verandas add a stylish extension to your home.

CONTENTS

- **Oasis Deluxe Pergola** - An aluminium frame pergola with automated sliding retractable louvres that lets you have a covered or open roof at the push of a button.

- **Oasis Pergola** - An aluminium frame pergola that lets you tilt fixed louvres to adjust the amount of sun you let in.

- **Oasis Glass Veranda** - An aluminium frame veranda with a glass roof that allows sunlight through while keeping you covered in the rain. Comes in a choice of three frame colours.

- **Oasis Polycarbonate Veranda** - An aluminium frame veranda in four polycarbonate roof colours so you can choose to have full sunlight or shade.
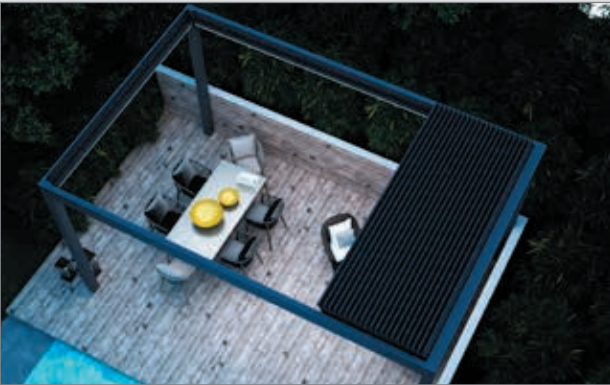

Oasis Deluxe Pergola

Oasis Pergola

Oasis Verandas

Pergola & veranda range

Oasis pergolas and verandas add a stylish extension to your home. And they don't just look good – they're extremely practical too. Helping you make use of your garden in all weathers. They're made from carefully selected, high-quality aluminium, which is solid, durable and weatherproof. And they hardly require any maintenance.

Why choose an aluminium pergola or veranda?

- Aluminium is more durable than other pergola and veranda materials, making them an excellent investment.
- An aluminium pergola or veranda offers a strong construction that will probably last you a lifetime.
- Aluminium pergolas and verandas have a long lifespan, meaning your investment will give you many years of carefree enjoyment and outdoor living.
- Aluminium requires little maintenance.

Oasis pergolas

Louvre roof options

LED strip lights

Our Oasis pergolas come in two options. The Deluxe pergola has a retractable roof and is available in eleven sizes. And the standard pergola has a fixed rotating louvre roof and is available in six sizes. You can also choose to have your pergola freestanding or as a canopy attached to your house. Our pergola ranges are all manufactured with aluminium square frame in grey.

Oasis Deluxe Pergolas

A deluxe pergola gives you the best of both worlds. Have an open space above your head so you feel like you're sitting out in the open. Or cover up at the touch of a button if it's too sunny or starts to rain. So, whatever the weather, you can experience the ultimate outdoor living feeling.

They're available in eleven sizes, ranging from our smallest at 3 x 3.02m, to our largest at 4 x 6.08m.

Deluxe pergolas also come with the option of adding an LED light strip. Providing you with an easy way to enjoy your space as the sun goes down.

Oasis Pergolas

If you want to decide for yourself how much you want to enjoy the sun and weather, the Oasis pergola is the perfect choice. Using a remote control, you can easily tilt the louvres in the roof to a different position. So, you can play with the light, the shade and the airflow above you.

During the summer, you'll have the flexibility to either sit in the sun or take advantage of the shade. And in winter, you'll experience the benefits of a waterproof roof, protecting you against the elements. This allows you to enjoy your outside space all year round.

They're available in six sizes, ranging from our smallest at 3 x 3.01m, to our largest at 4.95 x 3.5m.

These pergolas also come with the option of adding an LED light strip.

Oasis verandas

Glazed or polycarbonate roof

Frame colour options

GUARANTEED 5 YEARS

Our Oasis verandas come in two options. The glass veranda has a glazed roof, and the polycarbonate veranda has a polycarbonate roof with four colour options. In addition, you can choose from three frame colours and two types of leg, guttering and footplate.

They're available in three widths and five depths, ranging from our smallest at 4.06 x 2.50m, to our largest at 6.06 x 6m.

All our verandas have an aluminium frame in a choice of three colours: white textures, cream white or grey textured.

Oasis Verandas with glazed roof

Enjoy the daylight and uninterrupted views of trees, birds and stars, under a beautiful clear glass veranda. Our Oasis glass verandas aim to bring enrichment to your outdoor life, and a feeling a pure luxury. They give you space to enjoy being outdoors while offering you shelter from bad weather. And a glass roof means they won't block out the light coming through your home's windows.
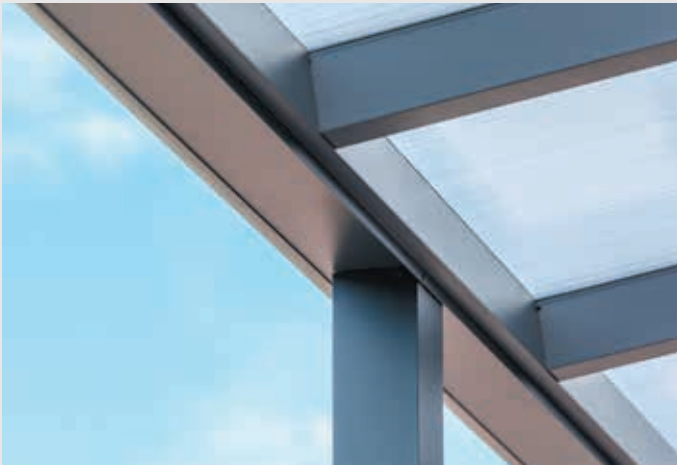

Oasis Verandas with polycarbonate roof

If you'd like a veranda that's finished to perfection and is fully customisable to your needs, then meet the Oasis polycarbonate roof veranda.

Our polycarbonate roof veranda comes in a choice of three roof colours. If you love a clear view so you can see the sky and trees around you, choose a clear or ultra-clear roof. Or if you'd prefer a bit of protection from the sun, but still want plenty of light coming through, opt for an opal or solar control.

SOUDAL

NEW SOUDAL CLEANING RANGE

Soudal's professional cleaning range products provide effective cleaning on substrates such as glass, mirrors and PVCu.

NEW

GLASS & MIRROR CLEANER

Professional quality aerosol cleaning agent that provides a spotless streak-free finish. A high yield formula with foaming action that provides excellent coverage. Suitable for most types of glass, mirrors and plastics.

NON-DRIP | STREAK-FREE FINISH | 750 ml = 10L HIGH YIELD

PVC SPRAY CLEANER

Professional quality, fast acting aerosol cleaner that removes ingrained dirt, marks and residues. Effective cleaning on white PVCu frames, sills, cladding, panels and trims.

FAST ACTING | INDUSTRIAL STRENGTH | REMOVES INGRAINED DIRT

FOIL SAFE SPRAY CLEANER NEW

Professional quality, fast acting aerosol cleaner that removes ingrained dirt, marks and residues. Effective cleaning on all foil wrapped PVCu, white PVCu and aluminium frames, sills, cladding, panels and trims.

PVCu / FOILS / ALU | FOIL SAFE | FAST ACTING
